Education

- 2023–Current **Master in Computer Science**, *University of Padua*, Padua, Italy
2025 **Erasmus Exchange**, *University of Helsinki*, Helsinki, Finland
2023 **Bachelor in Computer Science**, *University of Padua*, Padua, Italy, 91/110

Projects

- 2026 **Regression and Classification Tasks in R**
Small-scale projects for both regression and classification tasks in R.
○ Repository: `mhetacc/UNIPD_DataMiningClassificationRegression`
○ PDF Report: `mhetacc/UNIPD_DataMiningClassificationRegression/report.pdf`
- 2025 **Pygame Showcase of Raft Consensus Algorithm**
Bare-bones Travian clone made in Pygame that showcases some of the Raft consensus algorithm's base functionality. The project leverages multithreading and remote procedure calls to achieve the desired results.
○ Repository: `mhetacc/Raftian`
○ PDF Report: `mhetacc/Raftian/.../report.pdf`
- 2025 **Interactive Data Visualizer**
Visualize Europe's political leaning by state from 2009 to 2024. All data were taken from Eurostat official databases. The visualization, made with Plotly, consists of a map of Europe where each state is coloured based on its election results, and a line chart which shows three metrics: net earnings, immigration and poverty risk.
○ Repository: `mhetacc/HLSK_InteractiveVisualizer`
- 2024 **Social Network Analysis on TikTok**
The goal was to measure the presence of echo chambers in the US political landscape. Ten politically relevant TikTok accounts have been selected, respectively five left-leaning and five right-leaning. Then, data from said accounts were collected to measure their activity and perform a social network analysis on their followers.
○ Repository: `mhetacc/TikTok_SocialNetworkAnalysis`
○ PDF Report: `mhetacc/TikTok_SocialNetworkAnalysis/report.pdf`

Experience

- 2016–Current **Private Tutoring**
I have been tutoring students aged eight to twenty-five for ten years, mainly in computer science.
- Summer 2023 **Janitor in preschool**, Vicenza
- 2022 **Software Engineering Internship - Bachelor Thesis**
Implemented Augmented Reality features for a cross-platform mobile application developed in Flutter. The internship was completed at Datasoil s.r.l.
○ PDF Thesis (Italian): `mhetacc/.../Tesi.pdf`
- 2017-2018 **Food Delivery**, *Cosatiporto*, Vicenza

Skills

- Languages Italian (native), English (C1 - TOEFL 108/120)
- CS Skills Python, R, C++, Dart, Java, SQL, HTML, $\LaTeX$, Git, QML, GDScript. I'm comfortable with any desktop operating system. My current setup runs Fedora Workstation 43.
- Driving A and B licences.
